## 1. Core Questions

1.4) What was good about the course?

- The lectures were in general very good and it was easy to follow the course from textbook as we only required one textbook for everything
- The structure of the course is clear.
- The teacher!
- the course had very interesting contents which kept me interested. Also the debate at the ends would be good to apply our knowledge to.

1.5) How could this course be improved?

- :)
- Although I see the benefits to the debate, some people may not find it comfortable, thus I think students would enjoy it more if they weren't picked on to answer a question and rather a student volunteer.
- Lecturer could skip the debate session on every end of the lecture and do more theoretical example practice for us.
- Maybe by sometimes doing similar questions to the tutorial during the lecture
- More tutorials
